## Summary

---

I am a full-stack developer who enjoys building functional and intuitive applications. Experienced in various languages and frameworks, I always focus on efficient solutions and user-friendly design. With a passion for continuous learning and adapting to the latest technologies, I strive to deliver digital solutions that not only work well but also provide an enjoyable and effective user experience.

## Ngabuss (Bus Tracking App)

*React, Maps API, Next.js*

- Designed early concept of mobile tracking app using Flutter.
- Later adapted to fullstack web version using Next.js + Firebase.
- Included auth and responsive map-based UI.
- Applied clean code structure and reusable components.

## DaKu (DanaKu - Savings App)

*Flutter, Hive (local DB), Progress Bar, Image Picker*

- Local-first savings goal tracker app.
- Users can add savings goals with image, amount, and see progress bar update.
- Created tab-based navigation, history logs, and animated feedback for progress.
- Emphasized on responsive layout and user-friendly interactions.

## Learn With Eben (Online Course Platform)

*React, Node.js, MongoDB, vercel*

- Developed a full-stack e-learning platform for programming education.
- Created a RESTful API with Node.js for user and course data management.
- Built a responsive and interactive u-ser interface (UI) using React.
- Applied clean code structure and reusable components.

## Education

---

Universitas Teknologi Bandung

September 2022 – 2026 (expected)

Bachelor of Informatics Engineering (Ongoing)

## SKILLS

---

- Basic knowledge: Node.js, Express.js, Next.js
- Familiar with: Git, REST API, Postman
- Mobile Development: Flutter, Dart, Firebase, Supabase, Hive, SharedPreferences
- UI Design: Widget Tree Structure, Navigation, Form Input, Animations
- State Management: setState, Provider (exploring Riverpod)
- Device Features: Notifications, URL Launcher, Image Picker, Local Storage
- Design: Figma (Wireframe, UI Design)
- Testing: Manual testing, basic unit testing
- Detail-oriented and consistent in UI/UX delivery
- Fast learner and curious to explore new tech

## Additional

---

- Languages: Indonesian (native), English (intermediate)
- Own personal laptop with necessary tools installed
